

HOSTING, MAINTENANCE & DOMAINS

Your website is born. Give It a Good Home.

along with maintaining it. This includes managing **domain names** and keeping periodic **website backups**. The "Hosting & Maintenance" packages below include these essentials needed to have your website healthy and accessible on the Internet.

"Website Hosting" is the term used to identify the space on the Internet that a website lives on. Think of a website as a house—a house wouldn't be much good if it didn't have a piece of land to sit on. Purchasing hosting is like purchasing a lot on "Internet Avenue" to situate your website; it is essential to have if you want your website to be visited by the public.

Hitela can fully manage the Hosting of your website, and all of the other technical aspects that go
